## Work Experience :-

DiGiSPICE Noida

DiGiSPICE is positioned as a trusted strategic partner in the digital transformation of private & public enterprises and governments. As a Digital Native company, we leverage our core capabilities in engineering, analytics & automation, enabling customers to easily reinvent products, operations and business models. While building a strong ecosystem over the last two decades, we have emerged as our partners preferred choice to provide tech solutions for enterprise digital transformation, digital entertainment, digital financial services and digital government services globally.

Since 2000, DiGiSPICE is known to its customers as a thriving, innovation-led organization. With extensive experience in running telecom services in India (SPICE Telecom), creating telecom-focused IT and content solutions and building fintech platforms and mobile ecosystems for government services, DiGiSPICE has catered to a diverse set of customer needs, whilst keeping pace with the rapid evolutions in the tech industry. Our in-depth knowledge of digital domains, acute technical insight, customer first approach and agile service delivery has helped us achieve a leading position in the segments we operate in.
